

BIDS AND AWARDS COMMITTEE

Bid Bulletin No. 1 for 18TH Public Bidding CY2022

A. Services for the Development of DOE Electronic Payment System

1. Requirement for Single Largest Completed Project (SLCC)

Completed at least two (2) similar contracts, **the aggregate amount of which should be equivalent to at least fifty percent (50%)” of the ABC** for this Project; and the largest of these similar contracts must be equivalent to at least half of the percentage of the ABC as required above.

The acceptable SLCC for this purpose are those projects that have been completed **five (5) year** before the deadline of submission of bid.

For completed contracts under Joint Venture, the whole contract amount will be credited as SLCC.

2. Solution Provider Technical Qualifications

Position	Qualifications & Certifications
Position – One(1) Project Manager	<ul style="list-style-type: none">▪ Must have a Bachelor’s Degree▪ At least five (5) years experienced in System Development Project (including two (2) years in government institution)▪ Knowledgeable in Government Business Processes <p><i>(Must present proof of educational attainment and required experience such as, employment certificate showing in the duties and responsibilities the knowledge in government business process, certificate of participation in completed related government projects, etc)</i></p>
One (1) Business Analyst <ul style="list-style-type: none">▪ Have undertaken enterprise project management responsibility over development teams on projects which involve the development, customization, implementation, operation and support of large-scale enterprise IT systems.▪ Knowledgeable and familiarity with government business processes and information systems.

3. Technical Specifications

Clarifications :

1. Specific list of additional requirements after the workshop at no additional cost.

As required, the other ESSENTIAL and INDUSTRY STANDARD features, functionalities, and other requirements might be discovered by the solution provider and end users during the conduct of one of the deliverables; elicitation workshops), hence the same cannot be enumerated at this time. The SP shall implement these additional requirements, which are NECESSARY for the proper operation of the EPS, at no additional cost to DOE since the final deliverable is an operational EPS.

2. The following technologies shall be used:
 - a. Latest Front-end Framework (e.g. Vue Framework, HTML5, CSS)
 - b. JavaScript Libraries: NodeJS
 - c. Database: MS SQL Server 2019 Enterprise Edition compatible with 2017 edition Core 2 SL or higher with a minimum of 4 licenses
 - d. Analytics: Google Analytics
 - e. SSO: O365 for Internal Users

1. **The supplier should design the system to run on DOE's existing MS SQL Server 2017 Enterprise Edition CORE 2 SL with four 4 Licenses**

2. **The Java Script libraries should be NodeJS, jQuery is not acceptable**

3. **The SP participation, requirement and scope of work are as indicated in the TOR/Specifications including the provision and implementation of other requirements not specifically mentioned in the TOR/Specification but necessary to deliver a well-functioning and operating EPS at no additional cost edition.**
4. As part of the Post-Qualification process, the SP must show a readily available Application System or Prototype application which shall be presented to DOE as Proof of Concept (POC) within 7 days after the opening of bids. Software Provider must show at least 15 points of the functionalities listed in the System Functionality Sheet - Annex F).

The submission of Proof of Concept as indicated is required and will be used for SP's rating during the post-qualification. Non-submission of the same can be a ground for disqualification.

5. **DICT's PNPKI Digital Certificate for DOE user digital signing – DOE shall made available to SP for installation into the PKI tokens.**
