

HYDROPOWER PRE-DETERMINED AREAS

AREA NO. 11 - AKLAN RIVER MIDDLE WEST TRIBUTARY

PROFILE

Project Name : Aklan River Middle West Tributary

Potential Capacity : 1.4MW

Type : Run of river

River Source : Burabod

Location

Region : Western Visayas Region (VI)

Province : Aklan

Municipality : Libacao

Coordinates

Weir/Dam : 11° 20' 39.34" N, 122° 13' 44.82" E

Powerhouse : 11° 21' 12.5" N, 122° 15' 20.9" E

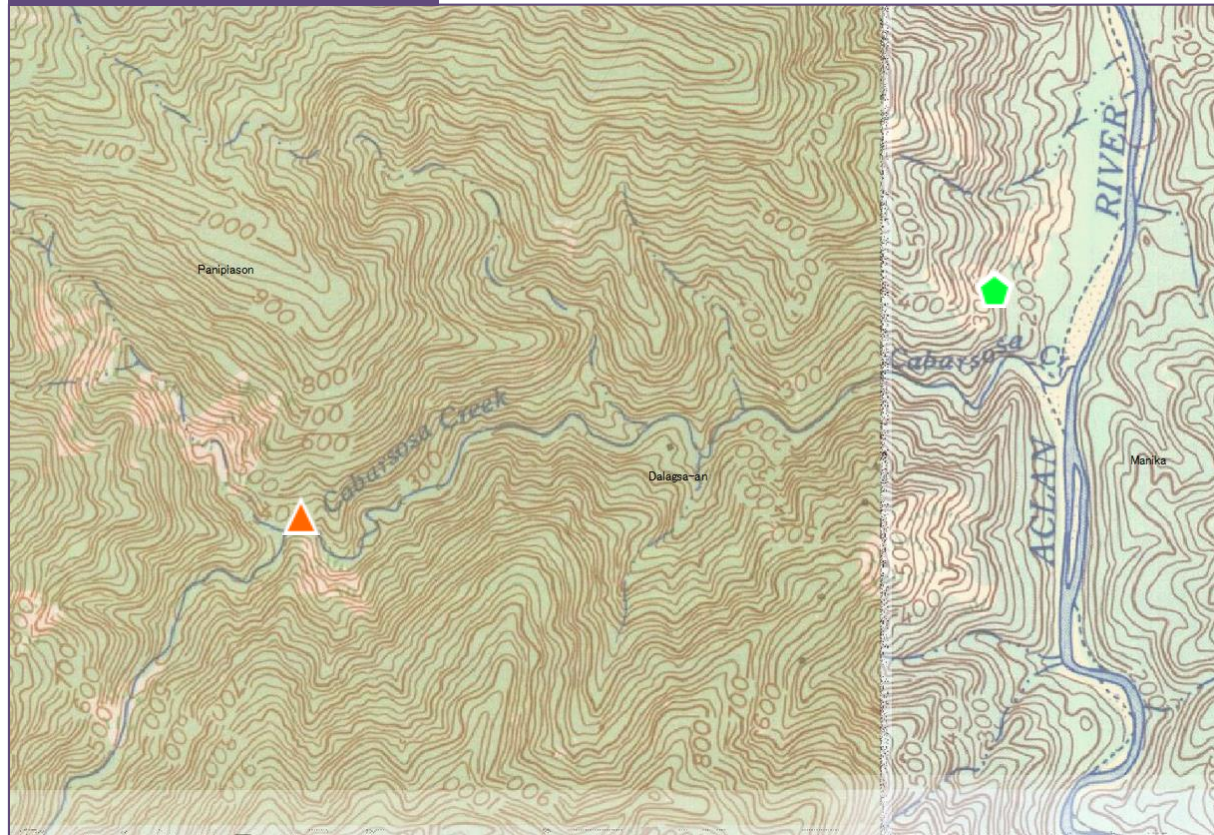

Catchment Area : 9.43km²

Effective Head : 145m

Discharge : 1.23m³/s

Remarks : At the time of the study, the project was found not financially viable.

LOCATION MAP

HYDROPOWER PRE-DETERMINED AREAS

AREA NO. 11 - AKLAN RIVER MIDDLE WEST TRIBUTARY

BACKGROUND

- The Hydropower Service Contract (HSC) which previously covered the development of the project was awarded on 02 February 2010 and was eventually terminated on 26 August 2014.
- The HSC expired on its own term due to the failure of the RE Developer to declare the commerciality of the project within the prescribed period and apply for the conversion from pre-development to development stage. The RE Developer likewise failed to submit the necessary permits.
- The Feasibility Study and Outline Engineering Design were undertaken by Vergel³ Consult in 2013.
